

Welburn Community Primary School Geography Curriculum

Our intent for geography at Welburn Primary School is to develop children who:

- wonder about the world in which we live and are curious
- understand the differences between physical and human geography
- can interpret and use a range of geographical sources including maps, globes photographs and interactive electronic
- have respect for different environments and cultures
- can explore the local area they belong to.
- can carry our fieldwork studies in a variety of locations.

To implement this we will:

- teach pupil the knowledge and skills they need
- teach and use geographical vocabulary
- use a range of up-to-date and relevant sources
- use visits where possible
- allow pupils to enquire and explore whenever possible
- follow the National Curriculum
- be inclusive to all pupils
- interleave with other subjects where possible
- Reception will work towards the Early Learning Goal:
Understanding the world
